Stories from people who said YAS!

Hear what young people have to say about their experience with Youth Advisory Sessions.

“Joe” had applied for hundreds of jobs without success, was feeling unmotivated and struggled to find a sense of direction. However, he decided to give YAS a go.

At Joe’s first Session his Consultant helped him update his résumé, focus on his applications, and improve his body language to assist with interviews. When Joe arrived for his second YAS he had more confidence and was ready to continue his job search efforts.

Joe later contacted his YAS Consultant to advise that he had secured his dream job in his chosen IT field. He has told his Consultant that he is progressing well.

“Shannon’s” job search efforts were not going well, and he was starting to lose interest in looking for work. After hearing about YAS, Shannon decided to book a Session and try it out.

Shannon’s YAS Consultant worked with him to refocus his job search activities, tailor his résumé and cover letter to suit specific applications, role play interview scenarios and helped him understand the importance of time keeping and attitude.

Shannon was able to put these strategies into practice and told his Consultant that he has secured a job soon after attending his first YAS appointment.

Book your session now!

1. Sign in to jobsearch.gov.au
2. Search for *Youth Advisory Sessions* in your Activities page.
3. Find a session time that works for you.
4. Make a booking.
